power supply
via USB

INNOVATIVE & NON -TOXIC

Bluvy's innovation utilizes a patented combination of two wavelengths of light.

Captures up to 5X more sand flies and mosquitoes than traditional light traps.

The trap contains two compartments: a capture cage to catch mosquitoes and a fine mesh bag to capture tiny sand flies.

INDOOR & OUTDOOR

Silent and weather resistant, Bluvy is ideal for both indoor and outdoor use such as: terraces, balconies, gazebos, patios, and other areas affected by sand fly and mosquito populations. **Designed to run 24/7 to continuously reduce the insect population.**

UV LEDs
